hcandersen_da
```

Format

A data frame with 20439 rows and 2 variables: text and book.

| hcandersen_de | *The text of H.C. Andersens fairy tales in German.* |

Description

A dataset containing 156 out of 157 of H.C. andersens fairy tales translated to German. The UTF-8 plain text was sourced from http://www.andersenstories.com/ and is divided into elements of up to about 80 characters each.

Usage

```
hcandersen_de
```

Format

A data frame with 28255 rows and 2 variables: text and book.

| hcandersen_en | *The text of H.C. Andersens fairy tales in English.* |

Description

A dataset containing 157 out of 157 of H.C. andersens fairy tales translated to English. The UTF-8 plain text was sourced from http://www.andersenstories.com/ and is divided into elements of up to about 80 characters each.

Usage

```
hcandersen_en
```

Format

A data frame with 27859 rows and 2 variables: text and book.

| hcandersen_es | *The text of H.C. Andersens fairy tales in Spanish.* |

Description

A dataset containing 157 out of 157 of H.C. andersens fairy tales translated to Spanish. The UTF-8 plain text was sourced from http://www.andersenstories.com/ and is divided into elements of up to about 80 characters each.

Usage

```
hcandersen_es
```

Format

A data frame with 27510 rows and 2 variables: text and book.

---

hcandersen_fr	*The text of H.C. Andersens fairy tales in French*

Description

A dataset containing 61 out of 157 of H.C. andersens fairy tales translated to French The UTF-8 plain text was sourced from http://www.andersenstories.com/ and is divided into elements of up to about 80 characters each.

Usage

```
hcandersen_fr
```

Format

A data frame with 11184 rows and 2 variables: text and book.

---

hca_fairytales	*Tidy data frame of all of H.C. Andersens fairy tales in this pacakage*

Description

A tidy data frame of all of H.C.
